INDIANS MORE CALM.

Deputies from the Interior Report Them Keeping Quiet.

TOWNS UNDER ARMS.

No Uneasiness Felt by Whites in Choctaw Nation—Lieut. Dixon Says Reports Are Exaggerated and No Troops Needed.

South McAlester, I. T., Jan. 26.—No new developments in the threatened uprising have been received. Several deputies came and reported the Indians keeping quiet.

The Choctaws have no active leader and the organization is not as perfect as in the Creek Nation.

Governor Duke, has sent instructions to the sheriffs to arr all trouble makers.

It is reported there will be a big meeting of Snake's today but the place is kept secret.

No uneasiness is felt among the whites anywhere in the Choctaw Nation.

Crazy Snake in an interview said his party were the regular Creeks, composed of the rank and file of Creek Indians, the original treaty Indians, who desire to stand by the treaty rights guaranteed by the United States long ago, rights which they would never voluntarily surrender. He declared Chief Porter and the squaw men and a lot of their followers, traitors and violators of the Creek laws and traditions, which he and his followers were prepared to sacrifice their lives if necessary to preserve.

It is reported that ex-Sheriff Stephen Roberts, a full-blood Choctaw, has organized a band of 200 disaffected Indians west of Atoka, Choctaw Nation.

SITUATION IMPROVED.

Judge Gill Orders Arrest of Indians on the Charge of Treason.

Muskogee, I. T., Jan. 26.—Marshal Bennett in an interview last night said that while the situation is still alarming, he thinks it is now in hand.

United States Judge Gill has ordered Commissioner Sanson to proceed with Marshal Bennett and deputies and join the troops now at Henrietta and try all light horsemen on charge of treason and commit them to jail. Over 50 writs have been issued for the arrest of light horsemen and leaders.

Attorney General Griggs has instructed Marshal Bennett to send all assistance possible to towns and people and placed \$800 at his disposal at once. Marshal Bennett will take 20 deputies to the scene of the trouble.

The Snake band had a council at Hickorytown Friday.

Outside towns are armed, prepared for any emergency. Several towns in the Creek Nation have pickets out.

Denies Indians Uprising.

Checotah, I. T., Jan. 26.—W. G. Turner of Brush Hill, where the Snake band of Indians are supposed to be in camp, was in Checotah Friday and says there is no truth in the report from Eu-faula of Indian uprising. The Indians, says, who are supposed to be indulging in the war dance are at work, though a few are attempting to enforce some of their old laws, wherein members of their own tribe are concerned.

Reports Exaggerated.

Omaha, Jan. 26.—General Lee has received a telegraphic report from Lieut. Dixon, commanding the troop of cavalry sent to the scene of the Creek Indians. He states that he has not yet made a full investigation, but has learned enough to warrant his saying that the reports of an uprising have been greatly exaggerated. Thus far he has encountered no Indians and from civilians he learns there has been no violence on the part of the Indians and anticipates none. The report of Lieutenant Dixon comes from Henrietta, which place he reached during Friday forenoon.

Land Appraisers Safe.

Warren, O., Jan. 26.—A telegram from Alex Campbell, cousin of President McKinley, says the Dawes commission of land appraisers in Indian Territory are safe from Snake Indians and are well protected. Campbell says reports of uprising are exaggerated.

Chicago Crockery House Bombed.

Chicago, Jan. 26.—The wholesale and retail crockery establishment of Pitkin & Brooks was completely destroyed by fire here. No complete schedule of the losses have yet been made, but conservative estimates place them between \$350,000 and \$400,000, of which \$50,000 was on the building. The stock, according to members of the firm, is fully covered by insurance.

Saloonkeeper Mortally Wounded.

St. Joseph, Mo., Jan. 26.—L. C. Sutton, a well known saloon man, was fatally wounded by four robbers, who attempted to hold him up. Sutton was shot three times when he refused to

throw up his hands. He fired several shots at the robbers, but it is not known whether he wounded any of them.

Killed by a Madman.

Arlon, Belgium, Jan. 26.—M. Orban de Xivry, governor of the Belgium province of Luxenberg, was assassinated here by a man named Schneider, who after committed suicide. Schneider, who was in the employ of the provincial government, recently showed signs of incipient madness.

TEXAS LEGISLATURE.

Constitutional Convention Reported Favorable by Senate Committee.

Austin, Jan. 26.—A favorable majority report on Mr. Goss' resolution providing for a constitutional convention, and an unfavorable minority report, signed by Messrs. Grinnan and Stafford, were laid before the senate. Senator Davidson of DeWitt offered an amendment to the resolution, which amendment prescribes the form of oath to be taken by delegates to such convention, among other things swearing them to incorporate in the new constitution the home-stead exemption provisions of the present constitution, the same being set out in full in the said oath; also pledging them to incorporate in the constitution provisions empowering the legislature to control railroads. At his request the matter was laid over to have the reports and the amendment printed in the journal.

The chair laid before the senate a bill by Mr. Paulus fixing venue of suits against railroad companies in the county in which the accident occurs or in the county of the residence of the plaintiff at the time of the accident. The bill was engrossed.

Mr. Lipscomb secured the engrossment of his bill establishing university work at the Paris View Normal. It appropriates \$2500 for the first year and \$1800 for the second year.

The senate next considered the committee substitute for Mr. Gee's bill relating to quarantine. The bill as engrossed and finally passed provides that the counties of Texas shall pay the cost of quarantining dangerous and infectious diseases, excepting counties bordering on Mexico, which shall be required to pay one-half of the cost, the state paying the other half.

A bill on third reading by Mr. Hanger requiring a written charge where requested in criminal misdemeanor cases, was passed finally.

A bill by Mr. Paulus, on third reading, placing Lavaca county under the provisions of the general stock law, was passed finally.

The senate adjourned to Tuesday.

The house spent some time debating a resolution offered by Mr. Moore of Travis, authorizing the sergeant-at-arms to employ Mrs. Martha Grubbs at \$2 a day to do laundry work of the house. It was finally adopted.

A motion by Mr. Perry of Brazoria, fixing the bill for the relief of Galveston storm sufferers as a special order for Monday at 11 o'clock, was adopted.

The resolution offered by Mr. Palmer of Erath, providing for committees of the house to visit and examine the conditions of state institutions, was adopted after considerable debate.

The house adjourned to Monday.

Spanish War Claims.

Austin, Jan. 26.—Governor Sayers has approved for payment the claims for supplies and transportation on account of the Texas troops enlisted for the Spanish war. Adjutant General Scurry says the claims will be paid as rapidly as the comptroller can issue the warrants.

Aldrich's Anti-Lobby Bill.

Austin, Jan. 26.—House judiciary committee No. 2 has decided to report unfavorably Mr. Aldrich's bill, which was intended to require every man who came to the state capital for the purpose of lobbying to sign a register in the office of the secretary of state, showing by whom he is employed, what measure he came to work for or against and whether he opposes or favors such measures.

Governor Barnes Orders Troops.

Guthrie, O. T., Jan. 26.—Governor Barnes has ordered a militia company each at Chandler and Shawnee to be in readiness to start at any moment for the Indian Territory lines. Governor Barnes has received many messages from citizens of Stroud and Chandler which are situated near the Creek Nation asking that militia be sent at once to protect life and property by patrolling the line. There is apparently little fear of the Indians, but there is danger that outlaws, who infest the Creek country will raid banks and stores in Oklahoma under the guise of Indians.

Guarding Against Plague.

El Paso, Tex., Jan. 26.—According to the official reports from Austin and San Francisco and the orders that have been received in El Paso by the quarantine authorities, the bubonic plague situation in California is becoming very serious.

It is entirely probable that every train from California whether from San Francisco or any other part of the state will be held up at El Paso and neither freight nor passengers be allowed to

A SPECIAL MESSAGE.

President Urges Senate to Pass Ex-
tra Philippine Laws.

MORE LIBERAL LAWS.

The Message Caused General Surprise
Among the Senators Who Assert
an Extra Session Will Be
Necessary to Comply.

Washington, Jan. 26.—In a special
message the president yesterday trans-
mitted to the senate a report of the se-
cretary of war, inclosing the report of
the Taft Philippine commission. In his
message of transmittal the president
says that the report includes not only
the reports of the commission but its
extent of legislation and other im-
portant information relating to the con-
ditions and immediate wants of the Phil-
ippine islands. The president in his
message earnestly recommends legisla-
tion under which the government of the
islands may have authority to assist in
their peaceful industrial development in
the directions indicated by the secretary
of war.

The brief recommendation in the mes-
sage urging immediate legislation in the
interest of the Filipinos caused general
surprise among senators and occasioned
speculation upon the probability of an
extra session of congress immediately
after March 4. Senators generally say
they have no intimation from the White
House that a special session of the en-
tire congress may be desirable, but they
unite as one man in saying that no
Philippine legislation is possible during
the remainder of the present session.

The Spooner bill, vesting all power
for the government for the Philippine
archipelago in the president, is the only
Filipino bill. It is known that when-
ever an earnest effort is made to secure
legislation bearing upon this subject,
much time will be required.

Some senators also express the opin-
ion that legislation may be necessary
in the Cuban constitution and it may
be possible to secure it at this session.

The Senate.

Washington, Jan. 26.—Senator Depew
of New York delivered in the senate a
speech in support of the shipping bill
on Friday. The address was in the na-
ture of an appeal for American mer-
chant marine by the granting of sub-
sidies as provided for in the pending
measure. His discussion of the prob-
lems that now confront American man-
ufacturers and American farms was
notably interesting and effective.

Little progress was made with the In-
dian appropriation bill.

The last hour of the senate was con-
sumed in the passage of private pension
bills.

The House.

Washington, Jan. 26.—The house on
Friday adopted the conference report
upon the army appropriation bill. The
contest over it was brief. Mr. Hull, the
chairman of the military affairs com-
mittee, preventing a prolonged debate.
The debate was chiefly notable for a
short exchange between Mr. Richard-
son, the minority leader, and Mr. Hay
(Dem. Va.) a member of the conference
committee who reproached the Demo-
cratic leader for not making a fight for
a temporary army when the bill was
originally before the house.

The naval appropriation bill was final-
ly passed and also 77 private pension
bills.

House Disagreed.

Washington, Jan. 26.—The house
today disagreed to the senate amend-
ments to the legislative, executive and
judicial appropriation bill and agreed to
the conference asked for by the senate.
Messrs. Bingham of Pennsylvania, Hem-
maway of Indiana and Livingston of
Georgia were appointed conference on
part of the house.

Not Through Contesting.

Lexington, Ky., Jan. 26.—J. S.
Sweeney, Prof. John Burk and Walter
R. Day, who were ousted from the of-
fices of state auditor, superintendent of
schools and commissioner of agriculture
respectively, by the Goebel Democrats
in the famous contest for state offices
last April, held a conference here Thurs-
day night and will meet again one day
next week in Louisville, when they ex-
pect to take steps to reopen in the court
of appeals an application to restore them
to the offices to which they claim the
people elected them.

No Case Against Her.

Georgetown, Tex., Jan. 26.—The
woman, Beula Bradley, who has been
in jail here several months charged
with the murder of Constable Gamble
at Taylor in 1898, has been discharged
from custody, the late grand jury hav-
ing failed to indict her. The Gamble
murder remains a mystery.

Express Robber Convicted.

Port Gibson, Jan. 26.—H. G. Rey-
nolds pleaded guilty here to the charge
of burglarizing the express office at
Martin, Miss., and was sentenced to the
penitentiary for a term of four years.
Fred Marshall, also implicated, pleaded
guilty to jail breaking.

Internal Revenue Office Robbed.

Peoria, Ills., Jan. 27.—The office of
the internal revenue collector here was
robbed Friday night of a large quantity
of revenue stamps, the amount may
reach \$100. Many papers of value and
\$100 in cash was taken.

Living and Learning.

"I don't see how any one can lose
money in speculation," she remarked
thoughtfully.

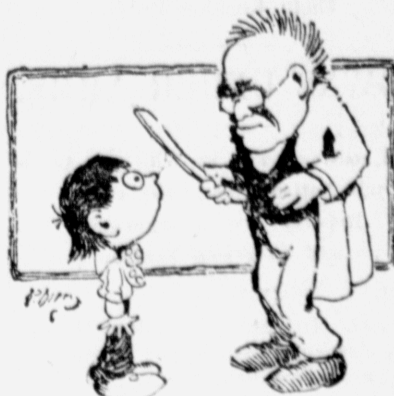

"Do you consider it so simple?" he
asked.

"Why, certainly. As I understand it,
all you have to do is to buy when
things are going up and sell when they
are coming down."

"But how are you going to know
which way they are going?" he in-
quired.

"Why—why, I never thought of that,"
she answered. "It does make a differ-
ence, doesn't it?"—Chicago Evening
Post.

Clever Boy.

"If I tell you, Johnnie, that I have
just seen twoscore years, what does
that mean?"

"It means, teacher, dat yer ain't a
bit like George Washington, who never
told no lie."—New York Journal.

Unbiased Opinions.

Some people wouldn't even grow old
if it required an effort.

The difference between praise and
flattery is that no reward is to be asked
when the former is given.

The absent wife who gets a letter from
her husband every day, although
they have been married for 15 years,
may think it is love, but the truth is
that she has him scared.

One nice thing about a president's
message is that you can say you have
read it without being afraid the other
fellow will pursue the subject for the
purpose of catching you in a lie.

No Real Dislike.

"You announced that you had no dis-
like for the young man who threatened
to dominate your party and depose you
from your leadership."

"I did," answered the professional
boss.

"And you really meant every word of
it?"

"Every word. There was no reason
in the world why I should dislike him.
I knew I could keep him from winning
if he seemed to be getting dangerous."

The Dealer's Idea.

"That's odd," said Mr. Pitt, who was
reading the paper.

"What's odd?" asked Mr. Penn.

"The demand for coal is said to be
slack."

"That must be what my dealer
thought."

"How so?"

"I ordered coal, but what he sent me
was mostly slack."—Pittsburg Chroni-
cle-Telegraph.

Retort Courteous.

"Really—er"—stammered the gossip
who had been caught red handed. "I'm

you. Perhaps—er—I was a bit too se-
vere."

"Oh, no!" replied the other woman.
"You weren't nearly as severe as you
would have been if you knew what I
think of you."—Philadelphia Press.

The Home Guard's Close Call.

We were on our dress parade last night;
The boys looked spick and span,
And their rifles all were shining bright;
In his place stood every man.
Our colonel marched us around the hall
Till my feet today feel sore;
With his orders, which I can't recall,
He drilled us an hour or more.

We stood in line; then the colonel said,
"It is plain to me, my men,
For Uncle Sam there is trouble ahead;
He will need defenders again,
And so perhaps we may get a call
To shoulder arms, march away,
To fight for the flag and maybe fall."

A feeble voice yelled, "Hooray!"

When he said, "Boys, we may go, perchance,
To a faroff foreign shore,
Each man gave him a most killing glance,
For they all seemed mighty sore.
"We may be sent to the west," said he,
"Or go down south for awhile
To help keep intact our liberty."
Each man then began to smile.

"Or," then continued our leader grand,
"We'll stay by our own dear shore
To face any foe that dares to land;
It is then that our guns will roar."
Before he could say another word
The men were cheering away;
For fifteen minutes all to be heard
Was a mighty "Hip, hip, hooray!"

FOR MOTHERS.

The period immediately following child-birth is fraught with
many dangers. The strength has been used in the painful ordeal
through which the mother has passed and she finds herself helpless
and weakened. Many mothers, like Mrs. Ford, date the beginning
of their illness from the birth of their child. Indeed the frequent
spectacle of a healthy young woman becoming a chronic invalid
after motherhood is one of the tragedies of life. All this is unneces-
sary, when Wine of Cardui is obtainable. It rehabilitates the
shattered nervous system, strengthens the organs and ligaments, and
re-establishes a healthy, natural condition, saving years of chronic
sickness and suffering. Wine of Cardui taken just before confinement
will render the ordeal comparatively painless. It will re-enforce and strengthen the organs
for their work. For every trying crisis in a woman's life, Wine of Cardui is the medicine
to take. Ask your druggist for Wine of Cardui and take no substitute. If one is
offered send \$1.00 for a bottle to the Chat-
anooga Medicine Company, Chattanooga,
Tenn.

REGIONS OF THE ANDES.

Explorer Conway Says They Abound in a Variety of Riches.

New York, Jan. 26.—Sir Martin Conway, an explorer who has contributed much to what is known of the mountain regions of the world, is at the Fifth Avenue hotel, having recently returned from his third trip of exploration to South America.

Sir Martin, whose explorations have extended over a period of 10 years and who has devoted nearly 30 years to scientific research, said that his work in South America would mark the close of his career as an explorer. He said that he would maintain his interest in scientific discovery; but that in the future he would organize and send out exploring expeditions instead of going himself.

Sir Martin said that he was about to organize an expedition to go to Peru next spring to explore the western slope of the Andes.

"The eastern slope of the Andes," Sir Martin said, "affords a field for scientific research which has immense possibilities. Practically nothing is known about the botany and nothing about the mineral resources of the vast region lying to the east of the Andes. It is known of course that this vast region has resources of interest to science and of value in a commercial sense, but it has been so little explored as to leave the world almost in the dark regarding its possibilities. Much is known about Venezuela and Colombia, but as yet little has been learned about the interior of Brazil, Bolivia, Ecuador, Peru and Argentina."

THE PERMIT ISSUED.

Saengerfest Association Given Sanction to Carry Out Prize Fight.

Cincinnati, Jan. 26.—Mayor Julius Fleischman has granted the Saengerfest Athletic association a permit to have two sparring matches at the Saengerfest building on Feb. 15, one of 10 rounds or 20. The committee called on the mayor Friday and presented a plea that the permit be issued at once. They stated that in view of the fight being made against the proposed contest between Jeffries and Ruhlin to aid in lifting the Saengerfest debt they did not think it was just to them that the mayor should withhold his permit until two days before the fight was scheduled to come off. The committee said if a fight were to be made in the courts against the contest it should be made immediately. Contracts for remodeling the Saengerfest building had been let and the work was ready to be pushed when the permit was granted. The mayor then granted the permit.

COURTS INVESTIGATION.

Annapolis Cadets Nothing to Fear in a Hazing Investigation.

Annapolis, Md., Jan.—When the naval cadets heard of Representative Sherman's resolution to investigate hazing in the naval academy they appeared very much pleased. They said they would be delighted with an investigation, as they had nothing to fear from it and it would give them a little excitement.

One cadet remarked that there had been practically no hazing at the naval academy for two years. He had never heard of any cadet being required to perform a menial service for another cadet. There was no cruel hazing at the naval academy. It was all fun and enjoyed when taken in good part by the victim as much as by those who were joking him. No such things as "wooden willies," "eagles," and "sitting on bayonets" were ever done in the academy, the cadets declared.

Message from Her Husband.

Fort Smith, Ark., Jan. 26.—Mrs. Ben T. Duval, Jr., has received a telegram from A. C. Johnson of St. Louis, the sender claiming to be her husband, whom she supposed to have died in October, 1898, in South America. She married Duval a week ago. Her maiden name was Jennie Lounsbury and her first marriage occurred Jan. 11, 1896, in Michigan. She has wired Johnson to come here, as she has proof of her husband's death and thinks this a mere coincidence.

Beaumont Oil Analyzed.

Corsicana, Tex., Jan. 26.—An analysis of the Beaumont oil made in the office of J. S. Cullinan & Co., in this city show it to be only 22½ gravity, a low grade of heavy oil, not good for other than fuel purposes.

Oil Find at Beaumont Attracting
Much Attention.

MANY NEW SCHEMES.

Throughout the Southern States the
Industrial Movement Takes on
New Vigor in the Establish-
ment of Enterprises.

Baltimore, Jan. 26.—Because of its dramatic manifestations and vast possibilities, the oil development near Beaumont, Tex., has become more than a nine day's wonder, and during the past week has fixed the attention of persons interested in southern industry upon southeastern Texas. At the same time other parts of the south have been maintaining their healthy progress in divers fields.

Among the notable announcements of the week in the Manufacturers' Record is the organization of a company with probably \$500,000 capital for the development of kaolin beds on about 400 acres of land in Cecil county, Maryland and the erection of a plant for heating clay and for the manufacture of fire brick and pottery.

In Blount county, Tennessee, experts from Ohio are inspecting lead ore properties with a view to their development; a company to make brick and tile has been organized at Vaden, Miss.; the brick and tile works at Cartersville, Ga., will be enlarged and improved; a plant with a capacity of 40,000 bricks a day is to be established at Decatur, Ala.; a marble quarry recently opened near Knoxville will be developed on a large scale; a quarry company of San Antonio, Tex., is installing \$10,000 worth of new machinery; at Alexandria, Va., plans are making for the establishment of a glass factory. Development of coal and other mineral lands in several states is being pushed.

Suggestive of the greater attention being given to wheat growing in the south is the large number of new flour mills to be built or of older ones to be remodeled.

Though few new cotton mills have been reported, with the exception of a \$100,000 one at Cedartown, Ga., for the manufacture of hosiery yarn for colored goods, improvements in a number of others are contemplated. The Nokonia mills of Lexington, N. C., will increase its equipment to 12,000 spindles and 400 looms, it is only a year old; the Jonesville Knitting mills of South Carolina will increase from \$12,000 to \$50,000; the Darlington Manufacturing company of the same state will add 28,000 spindles to its equipment; a company has been organized to build a knitting mill at Anniston, Ala.; an association of farmers will endeavor to establish a mill at Pine Bluff, Ark.; at Athens, Ga., a company will erect a knitting mill and an overall and trouser factory; a mill to make hosiery and perhaps undershirts will be built at Nottingham, Ala.; the Sweetwater (Tenn.) Woolen mill may make an addition for the manufacture of cotton yarns and warps.

New timber regions are being opened and lumber products will take new forms in a furniture factory at New Berne, N. C., a sash and door factory at Athens, Ga., a buggy factory at Goldsboro, N. C.; a sash and blind factory at Jonesboro, N. C.; a keg factory at Birmingham; a stove factory at Columbus, Miss.; and woodworking factories at Tampa, Fla., West Point, Va., and Montgomery, Ala. Other new industries include a mattress factory at Anderson, S. C.; a packery at Fort Worth, Tex., and a plant at New Orleans for the manufacture of iron beds, iron castings and hardware specialties.

Industries of many kinds will be given an enormous impetus in Texas if the oil in the Beaumont section has the great fuel value attributed to it. A special correspondent of the Manufacturers' Record, who is on the ground in the new field estimates the situation as follows:

"It is not aside the mark to say that at the present time everybody, including the owners of the Lucal well, is considerably at sea. All are as one who had fallen from a fourth story window and not yet had time to find out whether any bones had been broken or not. The magnitude of the flow is not the sole element of the perplexity. The character of the oil seems to be different from that of other fields, and the nature of the flow is also unusual. Unlike most gushers, where the oil is forced out for a few days by an accumulation of gas, there is no gas behind this oil. It flows in a steady, even stream, and without the noise which is always present where there is gas. Whence the pressure is another of the problems. Is the source of the supply a river, lake or pool, and is there an artesian pressure behind the oil? Are some of the questions which present themselves. The wise acres are simply looking profound and saying nothing. They want more evidence before committing themselves to any theories. It is not agreed as to the geological formation of the strata in which the oil was found. Some say it is shale or conglomerate, and if so, is not regarded as so promising for a long lived producer. Others affirm that the rock is a sand stone, and therefore, fulfills the best requirements. It will take time and may take some more wells to settle definitely some mooted questions."

DISQUALIFYING FILIPINOS.

Philippine Commission Make a Law That
Keep Rebels Out of Office.

Manila, Jan. 26.—The Philippine commission has passed an act declaring persons in arms against the United States authority or aiding or abetting the insurrectionists after March next, are ineligible to hold office.

A bill also has been enacted regulating the hours of labor and leaves absence of civil service appointees. The measure requires six hours work daily and provides free transportation for American employees from San Francisco with half salary from day embarkation.

General Funston reports that 30 of his men near San Isidro killed five insurgents. Later, the same detachment engaged 30 insurgents under Taguntan, the notorious leader and assassin. He was killed while trying to escape.

Fifty Thousand Swear Allegiance.

Iloilo, Island of Panay, Jan. 27.—Upward of 50,000 Filipinos have sworn allegiance to the United States in Iloilo province. Thirty surrendered at Santa Barba Friday.

Church Lands in the Philippines.

Washington, Jan. 26.—In the senate Mr. Hoar introduced and the senate passed a resolution asking for all information at the command of the president, or any executive officer of the government, as to the extent of the lands in the Philippine islands held for ecclesiastical purposes, the character and value of such lands and whether any official had on behalf of the government entered into any obligation as to titles to such lands.

BOERS TAKE A TRAIN.

It Was a Military Train and Had Soldiers and Ammunition Aboard.

Kimberly, Jan. 26.—A train with troops and military stores on board was waylaid and captured by Boers at Slipkijp near Fourteen steams, north of Kimberly, early Friday morning.

The Boers also captured the small post of Dublin Fusiliers, then blew up a culvert and waited for the train. The armored train has gone in pursuit of the Boers.

Cape Police Forced to Surrender.

Cape Town, Jan. 26.—Twenty Cape police surrendered to the Boers at Devondale on Jan. 21 without firing a shot. It is reported that General Prinsloo was wounded in the fighting of Jan. 16.

Crown Prince Frederick at Cowes.

Cowes, Jan. 26.—Emperor William left Cowes at 8 o'clock this morning on the royal yacht Alberta to visit Portsmouth and meet Crown Prince Frederick William, who started from Potsdam for England Friday morning. The emperor drove in a closed carriage before the town was astir and only half a dozen persons witnessed the departure from Trinity pier. On the return of the Alberta at 11:20 a. m. his majesty and the crown prince were standing on the bridge of the boat. The duke of Connaught boarded the yacht and welcomed them. The party drove to the Osborne House, returning the silent salutes of the bareheaded groups along the route.

Duke of Connaught's Elevation.

London, Jan. 26.—Lord Roberts has paid a third visit to Osborne House since his return from South Africa. The true story of his first reception has come out. He was terribly shocked by the change in the queen's appearance and signs of feebleness and left the audience room with tears rolling down his face.

One of the queen's last projects was the appointment of the duke of Connaught as adjutant general. It probably will be carried out at an early day, as the king will need his brother's advice on military matters.

While the liturgy of the English church has been revised by the royal command so as to include a prayer for George, duke of Cornwall and York. It is expected a patent will be issued at the time of the coronation for creation of the title of the prince of Wales.

Insurance on Victoria's Life.

New York, Jan. 26.—Local life insurance men estimated as high as from \$14,000,000 to \$15,000,000 as the probable aggregate amount to be paid out by the English companies to policyholders who had taken out insurance on Queen Victoria's life, but who had no relation to the queen. Such policies would not be written by companies in the United States. It was pointed out for here there must be an "insurable interest," shown before an application would be granted under the law in this country, the beneficiary must be a person dependent upon or pecuniarily interested in the life of the insured.

Bank Fails at Montgomery.

Montgomery, Ala., Jan. 26.—The Josiah Morris bank, one of the oldest private banking institutions in Alabama, did not open its doors for business this morning. The capital stock of the bank is \$100,000. Deposits are believed to be heavy. Assets and liabilities not yet known. Large crowds assembled around the bank and much excitement prevailed. Montgomery county has about \$200,000 deposited in the bank and the city of Montgomery was also a large depositor. The bank was the depository for nearly every railroad entering Montgomery.

Neely Off for Cuba.

New York, Jan. 26.—Charles F. W. Neely, former postal official, who was ordered extradited to Cuba for trial on charges of embezzlement, left Ludlow Street jail today and was taken on board a steamer for Cuba. He said to one of the wardens: "I am glad I am going back to Cuba, because I can readily explain away everything and be acquitted."
